

A map of Belgium with 20 sampling locations marked by colored dots. The locations are distributed across the country, with a higher concentration in the northern and central regions. The dots are colored red, blue, orange, green, pink, and brown. The map also shows the borders of neighboring countries: Hauts-de-France to the west and Luxembourg to the south. The text 'Belgium' is written across the center of the map, and 'Hauts-de-France' and 'Luxembourg' are written near their respective borders.
